

Five elements to consider before you file a personal injury lawsuit

In a world constantly growing in population, you may find yourself involved in an accident. If you experience an injury as a result of an accident, keep the following in mind:

» **Liability.** Whether your accident is the result of another individual's intentional or unintentional actions, responsibility for the incident must clearly be established. It is important to understand the allocation of fault, as this may affect your insurance coverage relating to any injuries or damages sustained.

» **Injuries.** Many kinds of injuries can occur. Injuries include, but are not limited to, personal bodily injury, loss of wages or other monies, damage to property, psychological injury, and pain and suffering.

» **Circumstances surrounding incident.** Accidents occur under many circumstances. It is crucial to note the location of the incident, as well as

the weather conditions, lighting or other potential contributing factors. Write down the details while the events are still fresh in your mind.

» **Insurance.** If you are injured as the result of an accident and sustain property or bodily injury, or both, and if your insurance company determines that coverage is warranted, it is important to realize that the insurance company may ask to be reimbursed for any funds recovered as a result of a legal dispute in your favor. Be careful when dealing with another person's insurance company.

» **Time.** Most accidents, from falls to car crashes, have a limited time frame to pursue legal action.

It is important that you contact an attorney as soon as possible after the incident if you are planning on pursuing any sort of legal remedy.

Atwood Hill Winery of Morning View, Ky., provided a tasting of their wine list made from locally grown grapes. Guests, residents, family members and employees had the opportunity to sample and purchase wine from Julie and Constance of Atwood Hill. The winner of the Atwood Hill wine basket was Kevin Brooks representing Highland Spring Transitional Care Center in Fort Thomas. About 100 professionals visited the community that day.
